

Newsletter

January 2017

Dear ESWELL customer,

In order to further optimize the communication between you and us, we are planning to send out a Newsletter on a regular basis informing about new products and applications, discontinued products, new and improved marketing material, international events etc.

If one of your colleagues also would like to receive this Newsletter, just send me his or her e-mail address and they will be added to the mailing list. And if you wish to be removed from the mailing list, just send me an e-mail.

We hope that you will experience this Newsletter as a supporting tool in your daily work with our ESWELL products and you are of course always welcome to suggest improvements, change or adaptations.

New ESWELL products

Recently, we introduced a simplified (and cheaper) version of our Head pad prone position, round. It basically has the same shape, measurements and foam construction as the original version, but we have removed the possibility of changing the diameter of the pad and it only has one opening for tubes on the side.

Item no.	Description	Colour	Size D x H in mm	List price	
229971	Head pad prone position, round	Black	320 x 170	401,61 EUR

ESWELL

Due to demand from especially Norway, we recently introduced a 2-part version of our very popular Leg positioning pad. It has the exact same shape, measurements and foam construction as the original; it is simply just divided into two parts, so that it can also work well on operating tables with 2-part leg plates.

Item no.	Description	Colour	Size L x W x H in mm	List price	
229903	Leg positioning pad, 2-part	Green	650 x 250 x 140/109	562,25 EUR	

In order to increase our offerings of pads for lateral position, we just recently introduced a new pad that can be used with all types and manufacturers of operating tables. It has a little different shape and measurements as our original version, but the function is the exact same.

Item no.	Description	Colour	Size L x W x H in mm	List price	
229739	Pad lateral position (universal)	Blue	600 x 500 x 150	742,97 EUR	

From several countries we got the demand to develop a pad that can be used with nylon legstraps in order to protect the body of the patient against the sharp edges of the nylon. This pad is now ready and can be used with all kinds of nylon straps with a width of 100 mm.

Item no.	Description	Colour	Size L x W x H in mm	List price	
299771	Pad for legstrap	Black	700 x 120 x 30	200,80 EUR	3d-view later

New and updated ESWELL positioning pads brochure

All of the above new pads will be included in our new brochure which will be finalized within the next weeks. For the first time, our ESWELL positioning pads brochure will then be available in the following six languages: Danish, Swedish, Norwegian, English, German and French.

If you want a version that includes your company logo, contact information and a short description of your company, just send me an e-mail including the information, and we will make it for you.

Discontinued ESWELL products

Due to low demand, we have decided to discontinue the following ESWELL products which will also be excluded from the new brochure. We still have a limited stock available of most of the products.

Discontinued		Replaced by	
Item no.	Description	Item no.	Description
